Nancy –

In addition to the other materials sent forward earlier on the TRI data preliminary data release, you had asked us to send our "back of the envelope" analysis of the RY2017 data.

Attached you'll find the TRI snapshot we do each year comparing the current year of preliminary data with the prior year of TRI data to set some context regarding the TRI preliminary data before it goes "live." This snapshot refers to the attached Excel file which contains top ten lists broken out by release medium and other waste management.

Let us know if you need anything else from us regarding the preliminary data release. Otherwise, we'll plan to circle back with you after the meeting with the mining sector representatives next week.

Best,
Alison

Subject: FW: Slightly amended version of OEI's "back-of-the-envelope" analysis of the RY2017 preliminary data

Hi Alison,

Attached please find the TRI snapshot we do each year comparing the current year of preliminary data with the prior year of TRI data to set some context regarding the TRI preliminary data before it goes "live." This snapshot refers to the attached Excel file which contains top ten lists broken out by release medium and other waste management.

Let us know if you need anything else from us regarding the preliminary data release. We're hoping to go live with a listserv message this week.

Thanks!

Larry
